

Energy policy statement

The directors, management and staff of the **Jackson Lift Group** are committed to a policy of continual improvement of all aspects of the management system and of the products and services delivered.

A companywide philosophy has been established with regard to business planning, objective setting, energy management and the associated resources required and it is seen as a major contribution to the continued management of a successful and profitable organisation.

The company is committed to:

- Reduce office-based employee energy consumption by 5%
- Ensure continual improvement in our energy performance
- Deploy information and resources to achieve our objectives and targets
- Uphold legal and other requirements regarding energy
- Consider energy performance improvements in the design, installation, service and repair of lifts and associated equipment
- Consider energy performance improvements in the ongoing development, maintenance and design of our facilities, equipment, systems and processes
- Effectively procure and utilize energy-efficient products and services

The Directors ensure that this policy provides a framework for establishing and reviewing objectives and that it is communicated, understood and implemented at all levels in the organisation.

Signed:
Mr. Paul Ringer. Position: IT & Health & Safety Director
